SUMMARY

I'm looking for a challenging role where I can use all of my skills and passion to benefit the company. I have a strong sense of design and a desire to create websites that are both aesthetically pleasing and easy to use. Aspiring web developer knowledgeable about version control with Git with a great background in HTML, CSS, and JavaScript who is highly motivated and results-oriented. I am eager to acquire new skills and provide support from the bottom up for web development projects.
